

Protecting, Connecting and Thriving:
We Are All Public Health
APRIL 1-7, 2024

2024 National Public Health Week Event Sponsorship

About Us

The Hawaii Public Health Association is a 78 year association of community members, public health professionals and organizations dedicated to improving public health. HPHA also serves as a voice for public health professionals and as a repository for information about public health in the Pacific. Our mission is to promote public health in Hawaii through leadership, collaboration, education and advocacy.

About National Public Health Week

Each year in April, public health is celebrated across the United States in a collaborative effort lead by the American Public Health Association. This year's National Public Health Week theme "**Protecting, Connecting and Thriving: We Are All Public Health**" will engage communities and sectors in a conversation focusing on how public health connects us all. We will celebrate the unique and joyful ways different cultures focus on health and explore how we can learn from each other with humility and openness.

Hawaii's Celebration

In Hawaii, we will celebrate National Public Health Week on Thursday, April 4th with a unique and interactive virtual program featuring community speakers and engagement by event participants. We hope you will consider partnering and supporting our efforts with an NPHW Event Sponsorship.

HPHA's NPHW events draw over 150 attendees each year comprised of public health professionals, community health workers, Department of Health employees and students. HPHA has over 30 partners who share and forward communications to their listserv, and we estimate over 10,000 impressions of your logo with our event marketing.

Presenting level sponsors have the opportunity to provide brief remarks at the event to promote their organization or initiatives.

As an NPHW sponsor, your brand will be promoted and receive increased recognition in front of HPHA's thousands of public health professionals, community health workers and organizations.

Metrics and promotional engagement include:

- HPHA has a large dedicated listserv of public health community members and is the only organization in Hawaii that reaches public health professionals weekly for the past nine years, with metrics that include:
- A Listserv with 1,450 total subscribers, of which half are a mix of HPHA members and non-member public health professionals, community health workers and related organizations
- Open rate on weekly eBlasts ranges from 43% to 48%
- Social assets: Facebook (669 followers) Instagram (1,386 followers) Twitter (587 followers)
- Typically 1,900 monthly website views from approximately 725 users
